

Excellent Opportunity in Beautiful Dover-Foxcroft, Maine

An exciting new practice opportunity is available in **Dover-Foxcroft**, Maine. An experienced Ophthalmologist with a very busy practice is seeking a partner. He is the only Ophthalmologist in the county and serves a large patient base from a modern well equipped office. The patient panel profile leans toward an older population with variety of age and disease related problems such as cataracts and glaucoma. Current annual volumes for the solo practice are 511 surgeries and 6,508 patient visits. Office staff includes three skilled Ophthalmic techs who handle the refraction and manage the patient flow. The call is unobtrusive, infrequently requiring a trip to the hospital. Surgery is conducted at Mayo Regional Hospital supported by an experienced collaborative OR team.

A good fit for this opportunity is a physician interested in a busy and satisfying well rounded general practice located in a small vibrant community, surrounded by natural beauty, with an excellent school system, affordable real estate and access to four season recreation. A competitive compensation package is offered. The hospital is supporting this recruitment with a generous salary guarantee, relocation expenses, and assistance with medical education debt.

Mayo Regional Hospital is a non-profit, 25-bed critical access hospital located in Dover-Foxcroft, Maine. The Hospital has 22 physicians and 320 staff members dedicated to providing acute medical/surgical care, intensive care, surgical services and obstetrics in an inpatient setting, as well as a wide array of outpatient services to an area slightly above 22,000.
