Eye and Ear Inst Bldg 203 Lothrop Street
Pittsburgh PA 15213

Dear Dr. Waxman:

We have an exceptional opportunity for an ophthalmologist interested in early partnership within a sub-specialty ophthalmology group.

I will be at the Academy meeting in Chicago in November and would appreciate if you would pass this information along to any doctor in your program that might be interested in discussing this opportunity with us. **Those interested in this opportunity may contact me on my cell phone at (717) 380-4989 or by email at bhalpern@aol.com.**

We are seeking associates who are interested in working in a dynamic and growing subspecialty group with the opportunity for partnership within one year. I am the founder of the practice and the senior physician, Fellowship trained in cornea from Wills Eye Hospital. I expect to retire soon, which creates an added opportunity for the right person.

Thank you.

Sincerely,

Barton L. Halpern, M.D.
